I saw you sitting across the bar, You looked real good and I fell real far  
I didn't see a ring on your hand, And I daydreamed you could be my man

Precious moments in life, Every moment with you,  
Precious moments in li - i - ife!  
Precious moments in life, Every moment with you,  
Precious moments in li - i - ife!

Living life with a losing hand  
I felt just fine, didn't miss a man  
You're the vision that changed my mind,  
I don't know your name, but I know you're mine

Precious moments in life, Every moment with you,  
Precious moments in li - i - ife!  
Precious moments in life, Every moment with you,  
Precious moments in li - i - ife!

Never had that much luck in love  
Told myself I should just give up  
Something's different about today  
I'm a brand new girl, it's a brand new day.

I closed my eyes and you walked my way  
I couldn't find the right words to say  
The lights dimmed while you walked right by  
When I think about you, it makes me cry.
